KX5100V

FULL DIGITAL VETERINARY ULTRASOUND SCANNER

A Application

(1) PORTABLE

With its internal battery, choice of external batteries, car charges and separate power adaptor, KX5100V lets you scan anywhere, anytime. Simple as that!

(2) SAFER

The farm can be a dangerous environment. You need to keep your wits about you, your hands free and yourself mobile. Unlike other portable ultrasound scanners, the KX5100V has been designed to put you in control of the situation, especially with the addition of goggles with their excellent peripheral vision.And having your hands free to work, KX5100V is actually comfortable to use. Put our goggles on, raise your eyes and the image is there.

B Features&Specification

(1)LANGUAGE

The KX5100V is with three types lanuange edition: Chinese,English and Spanish.We can do present language edition depending on your choice

(2)POWER SUPPLY

----Standard with two Internal lithium batteries, can exchange them easily when doing diagnostic to extend working times ; 3 hours/pc

----External batteries: 4 hours

----Power adapter

(3)STORAGE&CINE LOOP

----store up to 100 images plus all their associated data, such as practice name, cattle ID ect.

----Do cine loop with 250 frames image pictures

----Two USB ports available

(4)IMAGE QUALITY

----Durable and reliable, the KAIXIN' s broadband convex/micro-convex,linear probe with 2.5 MHz to 9.0 MHz frequency provides crystal clear ultrasound image

Eyeball of cow

Corpus Luteum of ovary

Bladder of dog

Embroy of sheep

----Probe: 80/64 element broadband with 16 channels (2.5MHz to 9.0 MHz) depending on different probe you choice

6.5Mhz rectal vet probe | 4.0Mhz convex vet probe | 6.5Mhz rectal vet probe(with handle) | 3.5Mhz convex probe | 7.5Mhz high frequency linear probe | 5.0Mhz micro convex probe

----Digital Beamforming on transmit and receive

----Display imaging options: goggles,LCD montior,CRT montior

(5)VETERINARY OB SOFTWARE

OB BOVINE	1.BPD 2.CRL 3.CWM 4.BD 5.CWW 6.TD 7.UD
OB EQUINE	1.BPD 2.CRL 3.CWM 4.BD 5.CWW 6.TD 7.UD
OB OVINE	1.BPD 2.CRL 3.TD 4.USD
OB CANINE	1.CRL 2.BD 3.HD 4.GSD
OB FELINE	1.BD 2.HD
OB GOAT	1.Angora 2.Finn 3.Nubian 4.Pigmy 5.Suffolk 6.Toggenburg
OB LLAMA	1. BPD

Light and handy

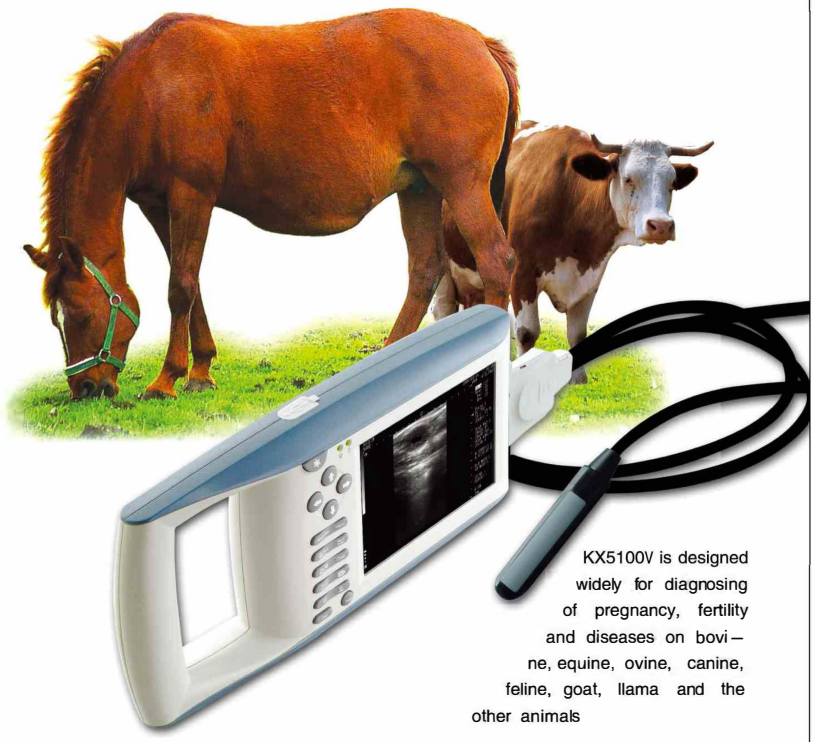

(6)Standard configuration:

Main unit: 1 PC

6.5MHz rectal vet probe (multi frequency, without handle): 1PC

Metal case: 1PC

KX5100V is designed widely for diagnosing of pregnancy, fertility and diseases on bovine, equine, ovine, canine, feline, goat, llama and the other animals
