Applicable animals

swine

ovine

canine

.....

MSU2

Full Digital B Mode Veterinary Ultrasound Scanner

- Net weight: 1.1 KG. smart and light
- Unique right/left handheld design, be applicable for customers with different habbit
- Multiple use method: handheld, hang
- Three gear adjustable for sunshade
- High-capacity lithium battery, Low power consumption design,more than 6 hours work

KAI XIN

Professional manufacturer of ultrasound scanner for veterinary use

MSU2

Full Digital B Mode Veterinary Ultrasound Scanner

Applicable animals

- swine、ovine、canine etc.

Applications

Pregnancy diagnosis

- MSU2 can check whether the pig is pregnant 18 days later after mating or not. Comparing with traditional method, you can get non-pregnant pigs about 12 days earlier

Diagnosis towards fetus

- Through the measurement the fetal heart rate to judge whether the fetus is dead or mummy

Diagnosis of sow uterine function

- Diagnose sow reproductive disturbance diseases: Pyometra , mucometra, etc.

Application effectiveness

- Pregnancy test with B ultrasound increases the accuracy rate; MSU2 can check whether the pig is pregnant or not as early as 18 days after mating, avoiding the waste of non-pregnant feed. At a rough estimate, this action can directly save about 1000 USD feed cost for farm for every 100 head of the sow
- Indirect economic benefits: increase the litter size, enhance productivity, find disease and epidemic situation timely, etc.

Function feature

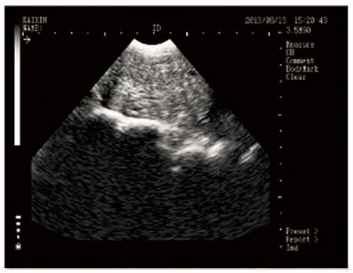

- Display mode: B 、2B、4B、B/M、M, total 5 kinds
- 100 frames permanent storage
- Local zooming
- Eight internal pseudo colors(incl. B/W)
- OB measurement: EDD and GA for swine, ovine and canine etc.
- OB report
- Flash card storage
- Dual power supply, equipped with high capacity lithium battery, driving the unit more than 6 hours

Standard configuration

Main unit: 1 PC
3.5MHz mechanical sector probe: 1PC
Lithium battery: 1PC
Base Charger: 1PC
Sunshine cover: 1PC
Silicone Protective Cover: 1PC
Plastic sealed box: 1PC

Optional configuration

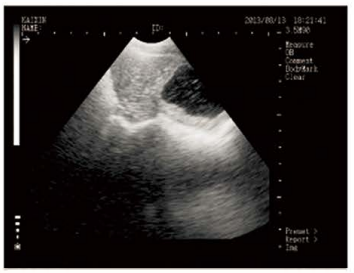

Lithium battery
Black leather saddlebag
Goggles

Non-pregnant uterine horn

Gravidity of pig which is 28days

Mucometra and pyometra

Dog's bladder
